

Airline Animal Hospital

Surgical Release Form

Pet's Name: _____ Date: _____

I am the owner of the above described animal and/or I have the authority to execute this consent:

(Owner's Signature)

It is important that we are able to contact you while your pet is here for treatment. Please indicate what the best method for us to communicate with you **today** is: **By Phone Call** _____ **Text Message** _____ **E-Mail** _____

Contact Phone Number(s): _____

I hereby consent and authorize the performance of the following procedure(s). Unforeseen conditions may be revealed that necessitate an extension of the foregoing procedures other than those set forth below. Therefore, performance of such procedures as are necessary in the exercise of the veterinarian's professional judgment will be done. I authorize the use of appropriate medications and other necessary procedures. I understand that hospital personnel will be employed as deemed necessary by the Veterinarian. I have been advised of the nature of the procedure(s) and the risks involved. I realize that results cannot be guaranteed. I have read and understand this authorization and consent.

Procedure(s) To Be Performed: _____

1) **Surgery**

Consent _____ Decline _____

2) **Dental Cleaning** Professional ultrasonic scaling removes plaque and tartar on the teeth and below the gum line. Clean teeth are then polished and treated with fluoride. Untreated plaque and tartar can develop into bad breath, tooth loss, bone loss, and other organ dysfunction.

Consent _____ Decline _____ Dental Cleaning

- _____ If additional procedures need to be performed due to dental disease (extractions, sub-gingival antibiotics, antibiotic injection, etc.), please do what is in the best interest of my pet.
- _____ If additional procedures need to be performed please call before proceeding.

3) **ProHeart 6** ProHeart 6 is an injectable parasiticide that is used in dogs six months of age and older to prevent heartworm disease continuously for six months. ProHeart 6 can not be used in sick, debilitated or underweight animals and is given with caution in dogs with pre-existing allergic reactions.

Consent _____ Decline _____ ProHeart 6 Injection

4) **Microchip** microchip is a tiny chip about the size of a grain of rice injected just under your pet's skin between the shoulder blades. The number on the chip is then entered into the database. When a lost pet is found, any animal hospital, shelter, or humane society can use a special handheld microchip scanner to read the microchip's unique ID number and reunite the lost pet with its owner.

Consent _____ Decline _____
